● Video of the Month - Hunter Fowkes
  ○ [Link to Video]

● Keep sending event or weather photos and videos to photocircle
  ○ Take weather photos over winter break and put them on photocircle!
  ○ Send in any club photos or videos, even if not for photo of the month! I can always use more for Month in Review and other projects! The more the merrier!

● Follow ISU AMS on Instagram and Twitter! @isuams

● AMS conference Poster

NWA Rep - Grace Hansen
● Next Meeting - will be either December 8th or 9th more information to come
  ○ Meeting will be held at Perfect Games here in Ames:)
● Last meeting we voted for a fully in-person conference this year!!
● Will be sending information about our scholarship out soon

Past President - Natalie Trout
● Thesis is here…. Good luck seniors! You have all worked for so long and hard on your research! You all will be amazing! Take a breath, you are about to get to the fun part of senior year (aka the biggest nap in the world after you’re done)
  ○ For everyone else... Go to the senior symposium, it supports your fellow met seniors and helps to prepare you for your future research.
● Finals stress is here! Take time for yourself, and START EARLY! Some advice...
  ○ I’ll say it again, especially for our new friends, start early! Cramming never works
  ○ For friends in calc classes [Link to real old exams] are some real old exams, but they are great practice! See if there are old/practice exams in other classes, don’t memorize the questions, but understand the process
  ○ Take time for yourself, but not too much time. Make your breaks actually worth something, go for a walk, do some yoga, a personal favorite was sitting in the Lied Steam room, but let your brain stop working for a while (don’t sit on your phone, switch subjects, etc)
  ○ Make a cheat/review sheet (idea from Dr Hornbuckle), start by rewriting everything you learned in the class, then keep condensing your topics down (when you master them) until you only are on one sheet of paper
Create a study schedule, section your day into manageable chunks and then set yourself MANAGEABLE goals (like understanding one topic in class), this helps break your classes down and make things less overwhelming

- I have a lot more advice, so if you need a friend, hype up, or just to rant, reach out!
- For those going to the conference, see you in two months!!

Cy’s Eyes Update- Trey Fulbright and Trevor Roubadeaux

Year Recap:
- Returned to all in-person shows in the studio!
- New Involvement!
- Two meetings nearly every week!
- Renewed interest in broadcast meteorology!
- Broadcast Meteorology Workshop!
